## DS DELIVERY VALET

YOUR TIME IS OUR PRIORITY

DS DELIVERY VALET allows you to benefit from the delivery of your new or used DS to the address of your choice and collection of your old vehicle.

PRICE: £195 inc. VAT

From January 2019 all models are Type Approved according to Worldwide Harmonised Light-Duty Vehicles Test Procedure (WLTP). WLTP is the new official test regime and replaces the New European Driving Cycle (NEDC). The CO<sub>2</sub> data has been converted from WLTP back to NEDC-equivalent values in accordance with current vehicle tax and Company Car Tax (CCT) legislation. Two values for CO<sub>2</sub> are shown per version, these are the 'Vehicle High' (1) value and the 'Vehicle Low' (2) value. For transparency and clarity, the 'Vehicle High' value has been used to calculate the first year taxation in the prices shown above. The actual CO<sub>2</sub> value of a version may vary according to optional equipment fitted but, other than in exceptional circumstances, will be between 'Vehicle High' and 'Vehicle Low'.

For full information, including WLTP fuel consumption data, please see technical specification pages, or refer to your nearest DS retailer.

(1) Vehicle High = High specifications vehicle fitted with maximum available options.

(2) Vehicle Low = Standard specifications vehicle fitted with minimal options.

Please note: an additional annual tax rate applies in years 2 to 6 for vehicles with a list price (which includes basic price, VAT, delivery cost and additional options) in excess of £40,000.

# TECHNOLOGY

## DS ACTIVE LED VISION

### IN BRIEF

The headlights on DS 9 feature full LED technology. Each one comprises three rotating modules with an animated “Magic 3D” function and a main LED projector. They also include the Adaptive Front System (AFS), a function designed to adapt the lighting to the road. This modern technology contributes to both comfort and safety through its variable power, clear visibility and immediate activation with clear, automatic signals.

At night, the Adaptive Front System function manages different lighting modes for each driving situation. For each one, the angle and intensity of the main headlights and modules vary in order to increase or reduce the range of the beam. The modules swivel and dip to widen or direct the beam to light up the roadside to a greater or lesser extent. This function is active only if the lighting is in automatic mode and can be deactivated via the central touchscreen.

### TOWN BEAM

The projector beams are of medium intensity with the modules turned outwards. This makes the beam wider, enabling the driver to see potential hazards (such as pedestrians, junctions, etc.) on the roadside more easily. The beam range is 280m. This lighting mode is activated after three seconds at a speed below 30mph.

### COUNTRY BEAM

The beam is straighter with intensity increased for the projectors and reduced for the modules. In this way, the field of vision is directed towards the front (better suited to country roads), while being sufficiently wide to see any potential sources of danger on the roadside. The beam range is 330m. This lighting mode is activated after two seconds at a vehicle speed of over 30mph.

### MOTORWAY BEAM

The projectors and modules create a cone of light with a raised beam, suitable for fast roads. Although similar to Country Beam, the modules create a more intense beam. The projectors and modules are raised slightly in order to increase range. The beam range is 370m. This lighting mode is activated after five seconds at a vehicle speed of 70mph.

## LIGHTING

### HIGH BEAM

This lighting mode can be activated at any time by the Automatic High Beam function, independently of the Adaptive Front System functions. It adapts automatically to the vehicle speed and angle of the steering wheel.

The power and range of the beam are set to maximum in order to effectively light up the length and breadth of the road. The modules are raised and positioned centrally, in line with the vehicle. At the same time, their range is increased. The beam range is 520m.

### ADVERSE WEATHER

This lighting mode is activated automatically at any time, when the wipers are activated. The beam is wider. The power of the modules is increased to enable the driver to see the white lines on the road more easily.

The intensity of the main beam is reduced in order to improve the driver's vision, taking into account possible reflections from the wet road. The beam range is 330m.

## WELCOME LIGHTING

### LOCKING/UNLOCKING

When the driver unlocks the vehicle using the plip or keyless access function, the vehicle initiates a “Welcome” sequence. The headlights and modules give off a purple light, as if the car were waking up.

### FOLLOW ME HOME

The automatic ‘Follow me Home’ lighting function leaves the headlights illuminated for a short time after the vehicle is locked, in order to light a path for passengers at night.

### LOCATION

This lighting function allows you to activate the headlights and indicators to help you find your car, for instance in a crowded car park.

### MARKER LIGHTS

When stopping at the road side, this lighting function makes sure other road users can see you clearly. The LED Daytime Running Lights and 3D rear lights are activated on the road side.

### SCROLLING INDICATORS

These distinctive, high-tech features underline the expressive looks of DS 9's light signature. They comprise a line of LEDs scrolling in segments towards the outside, in the direction of travel. They also include a one-touch activation function.

- Front and rear electric motors
- 200 hp petrol engine
- BIK: from 12%

**UP TO**  
**39**  
**MILES\***

(WLTP) in full electric.

\* The electric range you achieve in real life conditions will depend upon a number of factors including the starting charge of the battery, accessories fitted (post-registration), variations in weather, driving styles and vehicle load. Only compare fuel consumption and CO<sub>2</sub> figures with other cars tested to the same technical standard.

### REGENERATIVE BRAKING

**(B)**

For Braking Mode can be selected on the gear selector, meaning your vehicle will use a higher level of regenerative braking and slow-up faster when your foot is off the accelerator. Regenerative braking slows the vehicle while harnessing the kinetic energy back into the battery, thus helping to maximise range. Around town, the range can be increased up to 20% with regenerative braking.

### WHAT AFFECTS THE RANGE?

Driving style, driving speed, use of heating & air conditioning, acceleration or load are several factors that will affect the range of your car. Limiting the impact of the above factors will maximise range.

The predicted range gauge on our vehicles utilises recent driving history, as well as remaining battery charge and current driving conditions to estimate the range available.

# CHARGING

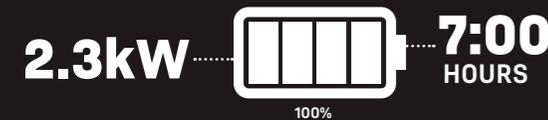

## DOMESTIC CHARGING

DS 9 E-TENSE comes with a domestic charging cable as standard, allowing you to charge from a standard UK 3-pin socket.

### E-TENSE 250

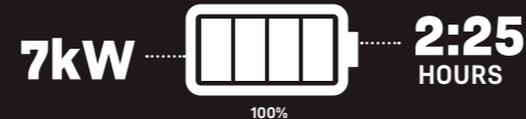

### E-TENSE 4X4 360

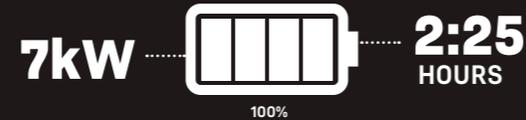

## ACCELERATED CHARGING

Install a home charging unit to access Accelerated charging at home.

### E-TENSE 250

### E-TENSE 4X4 360

To take advantage of Accelerated charging, install a home charging unit at your home. Our approved charging partner Pod Point can assist with installation. Speak to your DS Retailer about installing a home charging unit.

**20,000+**  
charging points in  
the UK, and growing

# MyDS APP

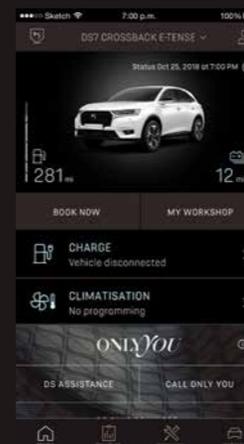

E-TENSE EXCLUSIVE FEATURES.

CONTROL YOUR ELECTRIC CAR FROM YOUR SMARTPHONE WITH THE MyDS APP.

## RANGE INFORMATION

With the MyDS smartphone app, you can see your car's current state of charge and approximate remaining range. When your car is plugged in, the speed and expected remaining charging time are also shown.

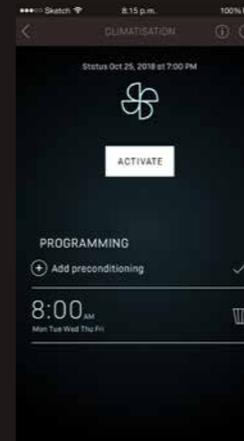

## REMOTE CHARGING

With control of remote charging you can use the MyDS app to commence charging or initiate a programmed charge. A programmed charge enables you to use the most beneficial energy rates to replenish your battery.

## REMOTE AIR CONDITIONING

This feature allows you to programme the heating or air conditioning of your car while it's still charging. Your car will be set to your preferred temperature when you get in, without diminishing the range available.

# TECHNOLOGY

## PROXIMITY KEYLESS ENTRY AND START

### IN BRIEF

PROXIMITY KEYLESS ENTRY AND START accurately recognises your arrival at the car and conveniently deploys the FLUSH FITTING DOOR HANDLES to welcome you as you approach.

### DETAILS

By keeping the vehicle key with you, you can enter the car and start/stop the engine with a simple push of the start/stop button on the dashboard.

When leaving the car, a simple touch on one of the front/rear door handles or on the rear tailgate's push button is enough to lock the vehicle.

Should you forget and leave the key inside, the car will prevent itself from being locked. Also, if you leave the vehicle while the engine is still running, a warning signal will ring to alert you.

The PROXIMITY KEYLESS ENTRY AND START gives you hands-free access through automated deployment of the FLUSH FITTING DOOR HANDLES and unlocking of the doors as you approach the car (in addition to the keyless entry and start function). Conversely, when you walk away from the car FLUSH FITTING DOOR HANDLES will retract and lock automatically.

### HOW IT WORKS

At a distance of 3m, your DS 9 detects the key, unfolds the door mirrors and illuminates the headlights in anticipation of your arrival.

When you are within 1.5m of the car, the FLUSH FITTING DOOR HANDLES deploy to reveal themselves and unlock your DS 9 automatically.

When leaving the car the door handles will retract at a distance of 2m away from the car, accompanied by an audible and visual confirmation that your DS 9 is locked.

## DS DRIVE ASSIST

### IN BRIEF

Travel long distances with peace of mind thanks to DS DRIVE ASSIST, the advanced driving aid that brings you a step closer to autonomous driving. This system combines the new Active Cruise Control Stop and Go and Lane Keeping Assist to manage driving in semi-autonomous mode, in specific conditions. DS DRIVE ASSIST helps manage steering and speed and is active at speeds between 40mph and 110mph.

### DETAILS

A reference speed is entered into the Active Cruise Control Stop and Go (from 20 mph). At the same time Lane Keeping Assist is activated using a button on the right of the dashboard (from 40 mph).

The system then registers your DS 9's position on the road (in the centre, on the left or on the right, in line with your driving habits). From this point on, your DS 9 will help control speed and steering.

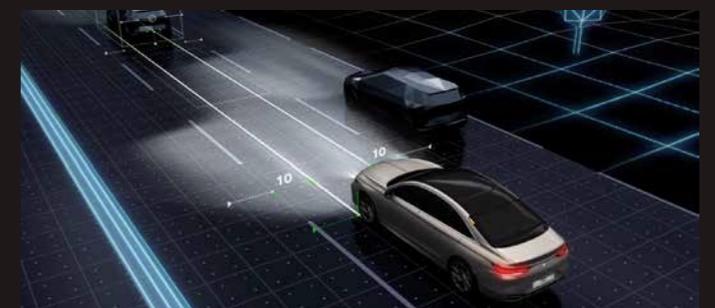

This system is particularly well suited to major roads and motorways, provided that the white lines are clearly visible. The system will help to drive the car but does not replace the driver who must remain focused, vigilant and in control of the car at all times.

### NOTES

To remain active, DS DRIVE ASSIST requires you to keep your hands on the steering wheel at all times even if you are not actively steering the car.

You can take back control at any time by:

- Applying torque to the steering wheel (to cancel Lane Keeping Assist).
- Braking (to cancel Active Cruise Control Stop and Go).
- Pressing the button to deactivate the function.

This feature does not reduce the need for absolute driver vigilance.

# TECHNICAL SPECIFICATION

\* Driver only  
 \*\*Official Government test fuel consumption figures  
 \*\*\*Please note: the maximum plated weights must not be exceeded

PLUG-IN HYBRID VERSION				
	E-TENSE 250		E-TENSE 4x4 360	
<b>ENGINE</b>				
Capacity (cc)	1598		1598	
Cylinders	4		4	
Maximum power CEE (hp/kW/rpm)	200/147/6000		200/147/6000	
Maximum torque CEE (Nm/rpm)	300/3000		300/3000	
Fuel system	Direct injection turbocharged		Direct injection turbocharged	
Euro status	6		6	
<b>ELECTRIC MOTOR AND BATTERY</b>				
Maximum power ECE (hp/kW)	110/81		110/81 + 113/83	
Maximum torque ECE (Nm)	320		320/166	
Charging Time 0 to 100% (7kW Accelerated charging via Wallbox)	2 hours 25 mins		2 hours 25 mins	
Battery	15.6 kWh Lithium-Ion		15.6 kWh Lithium-Ion	
Battery - number of cells	88		88	
Electric Energy Consumption Weighted Combined (Wh/km)	160		175	
<b>HYBRID POWERTRAIN PERFORMANCE</b>				
Combined maximum power CEE (hp/kW/rpm)	250/186/6000		360/265/6000	
Maximum torque CEE (Nm)	360		520	
0-62 mph* (seconds)	8.1		5.6	
0-1000m* (seconds)	27.7		25.4	
Maximum speed* (mph)	149		155	
<b>TRANSMISSION</b>				
EAT8 (Efficient Automatic Transmission 8 speed)	•		•	
<b>FUEL CONSUMPTION (WLTP)**</b>				
	Vehicle Low	Vehicle High	Vehicle Low	Vehicle High
Combined (L/100km)	0.8	1.2	1.5	1.5
Combined (mpg)	361	237	185	185
Electric mode range combined (miles)	52	43	39	39
<b>CO<sub>2</sub> EMISSIONS (WLTP)</b>				
	Vehicle Low	Vehicle High	Vehicle Low	Vehicle High
CO <sub>2</sub> EMISSIONS (g/km)	18	27	35	35
<b>WEIGHTS (kg)***</b>				
Kerb Weight (exc. Driver)	1864		1931	
Payload	486		489	
Maximum laden weight (Gross vehicle weight)	2350		2420	
<b>TOWING (kg)</b>				
Max towing weight braked	1275		1205	
Gross train weight	3625		3625	
<b>BRAKES</b>				
	Front: 330x30 mm ventilated discs. Rear: 290x12 mm discs		Front: 380x32 mm ventilated discs. Rear: 290x12 mm discs	
<b>SUSPENSION</b>				
	Front: MacPherson axle with wishbone lower arms, coil springs, piloted telescopic hydraulic shock absorbers and anti-roll bar			
	Rear: Multi-link rear axle, coil springs, telescopic piloted hydraulic shock absorbers and anti-roll bar			
<b>STEERING</b>				
	Variable power assisted steering			
Turning circle between kerbs (m)	11			
Number of turns lock to lock	3			
<b>FUEL TANK CAPACITY LITRES (gallons)</b>				
	42 (9.2)			
<b>BATTERY WARRANTY</b>				
	8 year 160,000km			

# DIMENSIONS

EXTERIOR DIMENSIONS (mm)	
Length	4,934
Width	1855
Width (inc. mirrors folded/unfolded)	1932 (2079)
Height (unladen)	1,460
BOOT VOLUMES	
Capacity (L)	510 * (Rivoli+) / 473 (Opera)

\*473 litres for versions with electric boot, Focal Hi-Fi or fitted with ventilated rear seats.

# DS CARE FOR CAR AND DRIVER

\*The delivery charge includes all miscellaneous charges, including the supply and fitment of registration plates etc.

## COMPREHENSIVE WARRANTY

Every new DS car offers the benefit of a three year<sup>1</sup> warranty package, plus a 12 year anti-perforation<sup>2</sup> warranty and a three year paint warranty. The E-Tense versions come with 8 years' or 100,000 miles battery warranty, whichever comes first, if the charging capacity of the batteries fall below 70%.

<sup>1</sup> Two years' unlimited mileage manufacturer's warranty. No-fee customer option of one year's Retailer provided warranty, only on cars sourced from DS AUTOMOBILES. Note: Retailer provided warranty is limited to 60,000 miles for cars and 100,000 miles for light commercial vehicles (excluding motorhomes and other converted vehicles).

<sup>2</sup> Against all internal to external perforation to bodywork or underbody on condition the car undergoes an inspection by a DS franchised Retailer every two years from its fourth anniversary.

## DS ASSISTANCE

In response to a free telephone call in the UK, DS Assistance brings rapid expert roadside assistance to you in an emergency. It comes free of charge for three years, from date of vehicle registration, and operates 24 hours a day in all parts of the UK and Europe. Services include nationwide recovery for both car and passengers, a home call service, replacement vehicle, hotel accommodation and vehicle storage if required. You can also purchase additional DS Assistance via your local DS dealer at any time. DS Assistance applies to incidents covered by the new vehicle warranty, and non-vehicle faults, such as running out fuel or mis-fuelling, instances where keys have been locked inside the vehicle or lost/stolen, road traffic accidents and punctures / wheel changes.
